Student Testimonials:

"The studio has taught me there is no acting. There's the honest experience. It doesn't just teach us how to be a "good actor," the work helps us expand our humanity" - Preston Hardin

"Being at the studio has taught me that I am enough. I don't have to "do" anything else." - Anthony Gibson

"By committing to the homework outside of class and bringing what you experienced to the studio, something happens. You lose yourself and become a conduit for the work. You fully experience the art of storytelling." - Stefanie Koller
