

**Sara Gaston
presents:**

The Ultimate Script Analysis Course for ACTORS!

***The must-have course
for the professional or
aspirational actor!***

Hello friends,

For a limited time, I am offering my online *Script Analysis* course with an additional mentorship program!

Here's how it works:

1. Purchase the self-paced course online: www.saragaston.com/script-analysis-course
2. For the month of September, I will hold 4 Zoom calls (remember office hours in college???). During these calls, you can check in, ask questions, get support, have accountability, and receive personalized coaching around your course.

That's it! You have until **September 1st** to purchase the course in order to be eligible for the mentoring program.

This is a great option if you have a hectic schedule and it's hard for you to get to regularly scheduled classes. You do not need to attend all zoom calls – they are there to support you!

- *Find out what's keeping you from your next level*
- *Conquer any script with ease and confidence*
- *Never again wonder why your work is falling flat*
- *Go into any audition with confidence and power*

I'm so excited to share my course with you: "The Ultimate Script Analysis Workshop: Everything You Need to Know from A-Z". I have compiled over 30 years' worth of training, knowledge and personal experience to bring you a course that covers all you need. There are things in here that you would not be able to find outside of a university or conservatory setting – we're talking deep dive! I hope you love it as much as I enjoyed creating it.
