

**Settling Into Yourself on Camera
With Scene Work
Workshop 2
September 9, 2023
10am-1pm**

This workshop is a follow up to the last 2 day intensive workshop. Building on the previous workshop, it consists of more living on camera under various queries. Each actor will be able to identify triggers, and exercise their effectiveness in various scenes. The workshop opens you up naturally by letting you take the lead while on camera, and goes several steps further by applying your real emotions to scripts. It will teach you about yourself and how to apply that awareness to your characters so you can make each audition uniquely yours. This workshop will focus heavily on scene breakdown, and on camera work!
